## Rapprochement, Change, Perception and Shaping the Future

50 Years of German-Israeli and Israeli-German Diplomatic Relations  
278 pages, hardcover, EUR 39.80, paperback, ISBN 978-3-7329-0223-1

### Contents

The relations between the two states and societies have been rather complex during both the previous half-century and beyond. Embedded in changing political landscapes, the ramifications reach back to the early 19<sup>th</sup> century. Yet the uniqueness of the relationship network only shows in light of the wholesale murder of Jews in Europe, the creation of the State of Israel, the discussions surrounding the initiation of diplomatic relations and their arrangement until the present day. The development and intensity of the relations with regard to civil society and politics are quite astonishing when considering the beginnings. Approaches, changes and the in part greatly-varying perceptions of the other side can be observed over the course of 50 years of history, and these give rise to questions concerning the current state of the relationship and its future design.
